SRI 'Standard' model

Clear concepts make the differing rifle is setting the new benchmark for this type of hunting rifle. New materials taken from the field of aeronautics satisfy even the most uncompromising demands. Every component in the SRI has been precision manufactured from the best available material. Intensive consultations with experienced designers have resulted in outstanding ergonomics and a fully functional design.

Smooth, rounded contours minimise soiling and won't snag on clothing or branches.

Further upgrade options to the SRI's exceptional design offer the 'Premium' model with selected wood or the 'Jagd' model with additional two-

*Integrated form:
The forearm and buttstock rib.*

*Ergonomics in the detail:
The trigger, safety and magazine release lever are integrated into a single unit.*

Operation is simple and safe, even in when wearing gloves.

Dynamic lines: The SRI offers outstanding aesthetics and functionality.

SRI 'Yagd' model: attractive two-color finish combined with oak-leaf engraving and selected walnut stock.

P E R F E C T I O N I N

The technology behind the SRI demonstrates reliability under even the toughest conditions. The gas-operated system manages extreme temperatures as low as -25°C flawlessly. The SRI performed perfectly in a firing test involving a wide range of loads from different manufacturers with various bullet weights and designs.

- ▶ **Action**
Gas-operated self-loading system. The self-cleaning system allows a wide range of ammunition without special adjustment.
- ▶ **Receiver**
Solid rotary bolting head with 2x3 locking lugs.
- ▶ **Trigger**
Crisp direct trigger.
- ▶ **Stock**
Walnut stock with straight back, lasered checkering and rubber gunstock pad for fast targeting. Variable drop and cast.
- ▶ **Barrel**
Free-floating precision barrel; the specially designed gas port enables it to be freely expand when hot.
- ▶ **Sight**
Bartue rib with contrast line, height- and side-adjustable front sight with light element. Prepared for pivot mount or Weaver rail.
- ▶ **Safety**
Trigger safety integrated in trigger guard.
- ▶ **Magazine**
Form-fitted 2- or 5-shot interchangeable magazine.

The SRI is impressively precise. The design of the gas piston and fore arm enables free extension of the barrel when hot—a feature that ensures tight groupings when combined with the renowned barrel production expertise of Merkel. Not just under laboratory conditions, but in real hunting situations.

SRI semi-automatic rifle:

Calibre: 7x64, .308 Win., .30-06, 8x57IS, 9.3x62, .300 Win. Mag.
Magazine capacity: 2-shot or 5-shot
Barrel length: 500mm (Std. Cal.), 510mm (Mag. Cal.)
Total length: 1060mm / 1070mm
Weight: approx. 3.2kg

The SR1 system means smooth lines and reliability.

The solid locking bolt head means secure locking.

Self-cleaning: the unique gas system of the SR1.

P E R F E C T I O N I N

Hunting demands flexibility, from both the hunter and the equipment. From this point of view, the Merkel SR1 offers outstanding versatility.

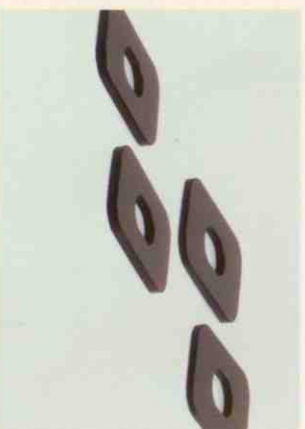

- ▶ The bores in the action housing make it a simple task to mount many different telescopic sights or red dot sights with pivot mount or Weaver rail.
- ▶ Interchangeable magazines are available with shot capacities of two or five.

▶ The drop and cast of the stock can be adjusted to many positions for secure and instinctive shooting.

▶ Easy to disassemble with surprisingly compact transport dimensions. The cases used for most breach action rifles or take-downs provide ample storage space for this modern semi-automatic rifle.

The front sight is vertically and horizontally adjustable.

Interchangeable inlays allow the adjustment of the stock to individual requirements.

F L E X I B I L I T Y

R I G H T I N D E T A I L

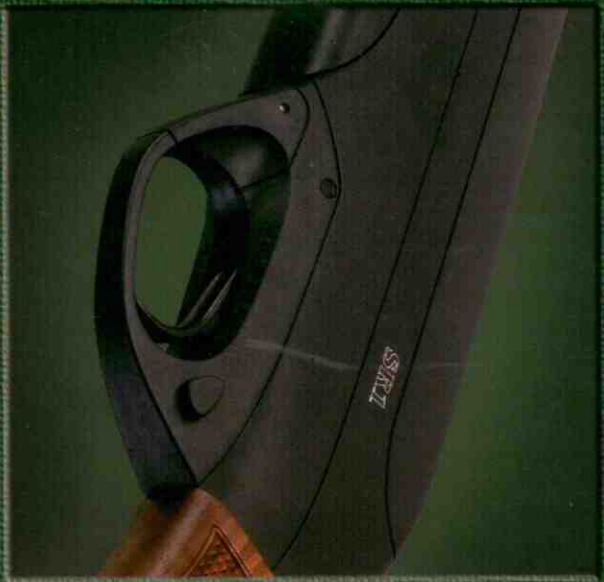

Well prepared: The SR1 can be easily fitted with optical sights.

Higher capacity: the interchangeable 5-slot magazines.

Magazine fitting wries in line with legal provisions.
