MERKEL 961L, 961LS

MERKEL

DOUBLE RIFLE DRILLING, DOUBLE RIFLE DRILLING WITH SIDEPLATES

Merkel 961L, 'Jagd' model

The new Merkel double rifle

drillings were made to meet the demands of the big game and driven hunts. The slim and compact receiver is particularly striking. The new version of the Merkel three lock system delivers extremely fast, straightforward and safe handling – an important advantage in meeting practical hunting needs.

► Locking mechanism

Merkel three lock system with Blitz locks and self-cocking. No selector, manual safety. As this system does not require a selector, it provides easy and safe handling. This rules out firing the wrong barrel by mistake.

► Trigger

The lengthwise adjustable front trigger works as single trigger with set shooting sequence for the barrels. This makes a fast follow-up shot without changing grip very easy. The shotgun barrel is operated by the rear trigger.

► Optional models:

Merkel 96L, 96LS

Merkel three lock system with three position cocking slide and double trigger with hair trigger, corresponds to Merkel Drillings 96K and 96KS.

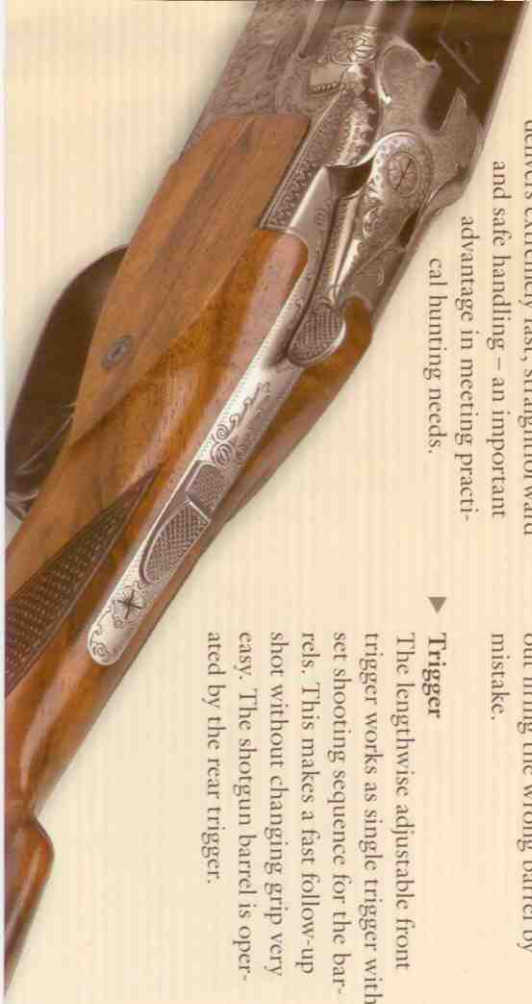

Double rifle drilling 961L, 961LS

Shotgun caliber: 20/76
Rifle caliber: 8x57IRS, 9.3x74R
Choke: 1/2, steel shot proofing
Barrel length: 55cm
Total length: approx. 98cm
Weight: ca. 3.2kg

Merkel 96L, with three position cocking slide

A particularly attractive option is the Merkel 961LS model featuring long sideplates.

Technical changes reserved.

MERKEL 140AE, 160AE

MERKEL

SAFARI SIDE-BY-SIDE RIFLES, SAFARI SIDE-BY-SIDE RIFLES WITH SIDE LOCKS

Safari double rifle Merkel 160AE with optional extras

Merkel Safari rifles have a long and excellent reputation among the big game hunters thanks to absolute reliability and accuracy. In response to requests from many safari and professional hunters these guns are now equipped with strong ejectors. A further practical feature is the design of the front trigger as floating trigger so that the danger of being injured by the recoil is reduced to a minimum.

- ▶ **Trigger**
Double trigger, floating front trigger.

- ▶ **Ejectors**
The extra-strong ejectors ensure that the spent cases are safely ejected from the chamber.

- ▶ **Safety**
Manual safety.

- ▶ **Breech**
Steel action with Greener-style cross bolt and double conventional bottom bite. Very strong, durable and solid.

Merkel 140AE side-by-side rifle

Locking mechanism: Anson Deeley lockwork with cocking indicators to show when the gun is cocked, ejectors.

Stock: quality walnut
Caliber: .375 H&H Mag., 416 Rigby, .470 N. E., .500 N. E.
Barrel length: 60cm
Total length: 102cm
Weight: approx. 4.6kg

Merkel 140AE, 'Jagd' model

Merkel 160AE side-by-side rifle

Technical data as with Merkel 140AE, but with true side locks and very finely grained walnut stock.

Express sights with two flaps

MERKEL K3, K3 'STUTZEN', K4

MERKEL

SINGLE SHOT RIFLE, SINGLE SHOT 'STUTZEN'

Merkel K3, 'Jagd' model

The single shot rifles made by

Merkel are amongst the most popular in their class. These rifles have become even more attractive with the introduction of the K3 and K4 models. The flexible use of sights is straightforward thanks to the SAM (Suhl tilt up mount) set up.

▶ **Locking mechanism**

Single lock hand-cocking system with automatic safety device

▶ **Breech**

K3: Receiver made of Dural
K4: Receiver made of steel
Jäger tilted block breech, completely torque-free and extremely rugged.

▶ **Trigger**

Finely tuned adjustable trigger: The trigger weight can be adjusted using a small lever on the trigger guard.

▶ **Barrel**

K3: round standard barrel
K4: octagonal barrel.

▶ **Scope mount**

SAM (Suhl tilt up mount) ready.

▶ **Merkel K3, K4 single shot rifle**

Caliber: .243 Win., 6.5x57R, 6.5x65R, .270 Win., .270 Weath. Mag., 7x57R, 7x65R, .300 Win. Mag., .308 Win., .30-06, .30R Blaser, 7mm Rem. Mag.
Barrel length: 60cm
Total length: approx. 101cm
Weight: approx. 2.5kg (K3), approx. 2.8kg (K4)

▶ **Merkel K3 'Stutzen'**

Enhanced compact design with full stock, two-piece forearm. Driven hunt sights with integrated light elements. Available from 'Jagd' model onwards.
Caliber: .243 Win., 7mm-08 Rem., .270 Win., .308 Win., 7x57R, .30-06, 8x57IRS
Barrel length: 50cm
Total length: approx. 91cm
Weight: approx. 2.5kg (depending on caliber and wood density).

Barrel options: K3 'Stutzen', K3 and K4 with octagonal barrels

MERKEL B4 BBF, B4 BS

MERKEL

OVER AND UNDER RIFLE/SHOTGUN COMBINATION, 'BERGSTUTZEN' WITH SINGLE LOCK HAND-COCKING SYSTEM

Merkel B4 BBF, 'Jagdt' model

Merkel B4 O/U

rifle/shotgun combination
Shotgun caliber: 12/76, 20/76, steel shot proofing, 1/2 Choke
Rifle caliber: .223 Rem., .243 Win., 6.5x55SE, 6.5x57R, 7x57R, 7x65R, .308Win., .30-06, .30R Blaser, 8x57IRS, 9.3x74R

Barrel length: 60cm
Overall length: approx. 102cm
Weight: approx. 3.1kg

Jäger tilted block breech

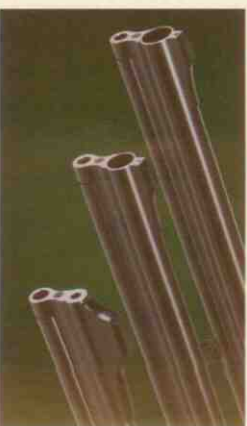

Merkel B4 BS two caliber

rifle combination 'Bergstutzen'
Small caliber: .22 Ho., .222 Rem., 5.6x50R Mag., 5.6x52R
Large caliber: 7x57R, 7x65R, .30-06, .30R Blaser, 8x57 IRS, 9.3x74R

Barrel length: 60cm
Overall length: approx. 102cm
Weight: approx. 3.3kg

Merkel B4 barrel sets

Single lock hand-cocking system, rugged Jäger tilted block breech and finely tuned trigger – these are the characteristics of the Merkel B4. As an over and under rifle/shotgun combination for the all-rounder or as two caliber rifle combination 'Bergstutzen' for the entire hunting season.

▶ **B4 BBF Over and under rifle/shotgun combination**

Shotgun barrel in 12 or 20 caliber, steel shot proofing. The rifle barrel is free-floating and pivots on a muzzle guide bushing. This guarantees high precision and excellent heat dissipation.

▶ **B4 BS Two caliber rifle combination 'Bergstutzen'**

The lower, large bore rifle barrel is free-floating and side and height adjustable and pivots on a muzzle guide bushing.

▶ **Scope mount**

Designed to accept the SAM (Suhl tilt up mount)

▶ **Trigger**

Finely tuned double trigger eliminates the need for a set trigger.

▶ **Breech**

Jäger tilted block breech, breech block can be removed by hand.

▶ **Locking mechanism**

Single lock hand-cocking system

▶ **Breech**

Jäger tilted block breech, breech block can be removed by hand.

▶ **Trigger**

Finely tuned double trigger eliminates the need for a set trigger.

▶ **Scope mount**

Designed to accept the SAM (Suhl tilt up mount)
